

Michigan Italian Genealogy Society

The Michigan Italian Genealogy Society is dedicated to promoting Italian family history and genealogy. We are dedicated towards educating members and the public in the methodology of finding one's roots. Our goal is to empower our members in their search for family records by providing the necessary tools and expertise needed. Discover that family history is an interesting, rewarding hobby that will enable you to discover your past and preserve your heritage for future generations. Our society explores various methods of tracing Italian ancestors, promotes education for beginners and more experienced genealogists through social media and blog posts.
